

Intune: A Better Way to Upgrade Windows 11 and Manage Future Updates

From Windows 10's Legacy to Windows 11 and beyond

MEET OUR PRESENTERS

James Spignardo

Director of Cloud Strategy and Ai Enablement

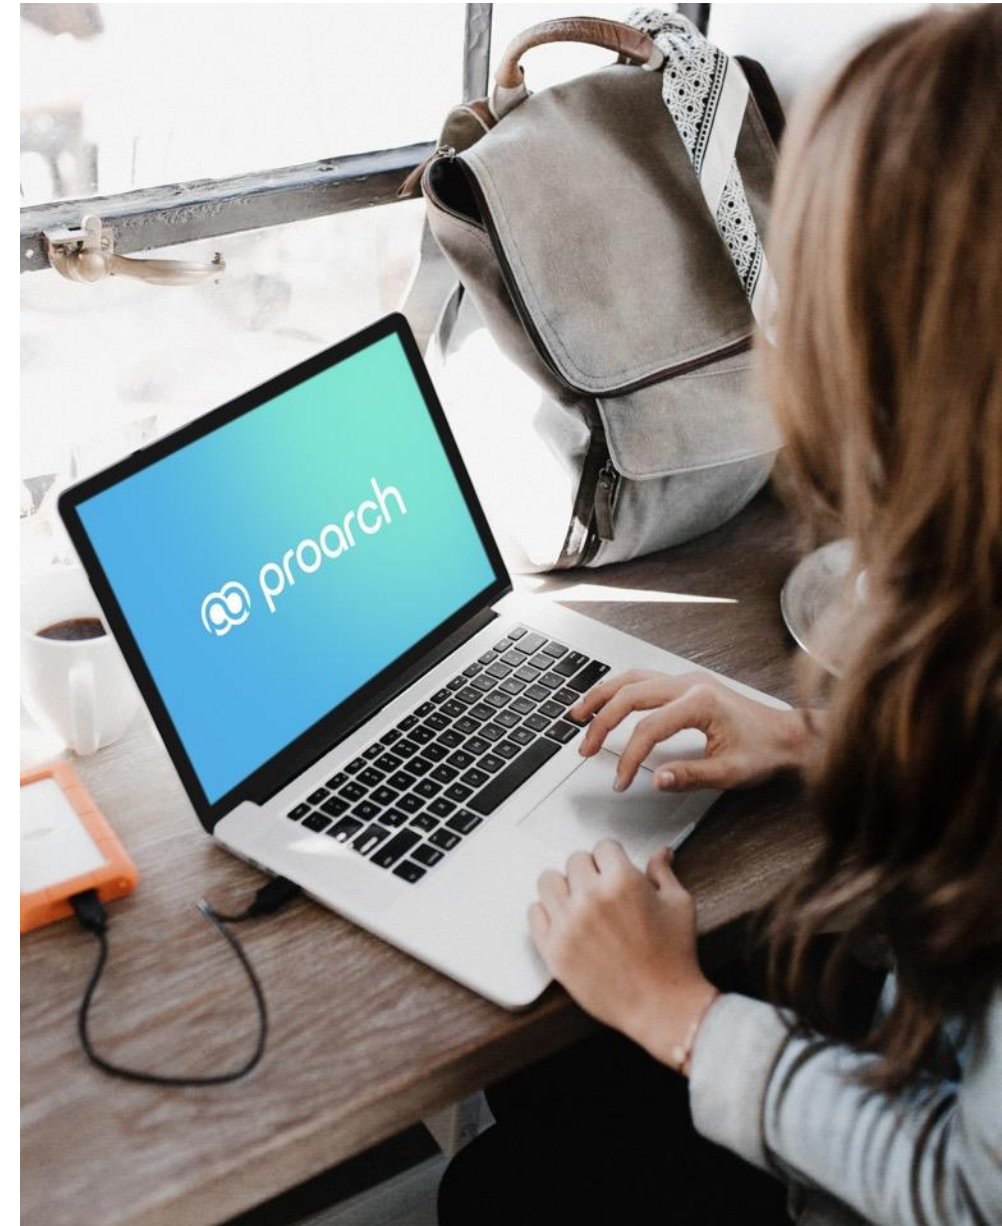

Greg Dodge

Director of Solution Development, Customer
Advisor, and Technical Sales

Agenda

- Retrospective: When Windows 10 Debuted (2015)
- The Countdown: October 14, 2025
- Managing Updates: Traditional Way vs. Modern Way
- Why Intune?
 - Immediate vs. Long-Term Benefits
 - The Blueprint Approach
- Intune Demo
- Nerdio Demo
- Leave-Behind Resources
- Q&A / Discussion

Retrospective: When Windows 10 Debuted in 2015

Apple Watch had just launched.

Star Wars: *The Force Awakens* was in theaters.

The original Amazon Echo was brand new.

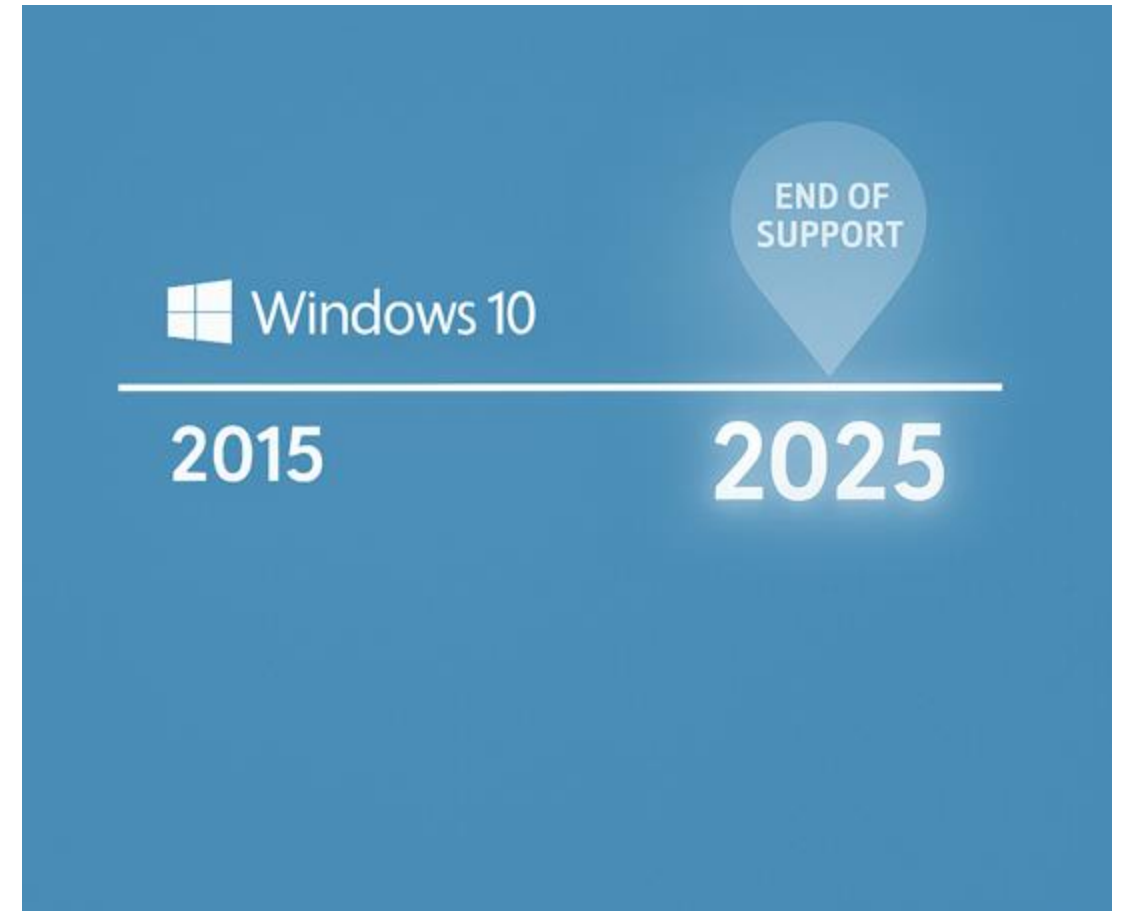

Microsoft pitched "Windows as a Service."

Windows 10 EOL: A Security Turning Point

End of Support Countdown: October 14, 2025

- No more security updates*
- Unsupported Devices = Unsecured Devices
- Compliance & regulatory risks
- Expanded attack surface

**ESU is available at a cost*

Why Intune?

DEVICE MANAGEMENT IS A CRITICAL COMPONENT OF SECURITY

BUNDLED WITH M365 BP/F3/E3/E5

CLOUD-NATIVE, SCALABLE, LOWER TCO

FUTURE-READY

Upgrading Windows: The Old Way vs. The Intune Way

Traditional Way

- Imaging devices
- Manual rebuilds
- User downtime
- Inconsistent patching
(WSUS, WDS, MDT, SCCM,
GPOs, third-party tools)

Modern Way with Intune

- Policy-driven
- Cloud-native
- Zero-touch
- Repeatable

Intune Immediate vs. Long-Term Benefits

Immediate

- Simplified upgrade to Windows 11
- Identify Incompatible Devices
- Minimal IT effort and user downtime
- Defined deployment rings
- Enforce policies – security, compliance, configuration profiles

Long-Term

- Unified endpoint management (not just Windows)
- Compliance and Zero Trust alignment
- Repeatability and Standardization
- Proactive analytics and reporting

The Blueprint Approach

Treat your Windows 11 migration as a test case for all future OS and patch transitions.

Once the process is built, reuse it with confidence.

Demo: Intune in Action

From Policy Creation to Upgrade Completion

Demo: Nerdio in Action

Simplify and Scale with Nerdio

Resources

1. Scripted demo steps.
2. Deployment checklist.
3. Free assessment (email)
