Power Generation Services Overview

- Hydro
- Solar
- Wind
- Geothermal
- Natural Gas
- Biomass

ProArch partners with the power generation industry—including **private equity, O&M operators, and independent power producers**—by delivering consulting services and technology solutions that reduce risk and boost resiliency.

> *Compared to other plants in our NERC category, we're ahead! ProArch is helping us implement security best practices to stay compliant and ensure our cyber-security is very locked down.*

GERALD KISSEL
Plant Manager, Garrison Energy
